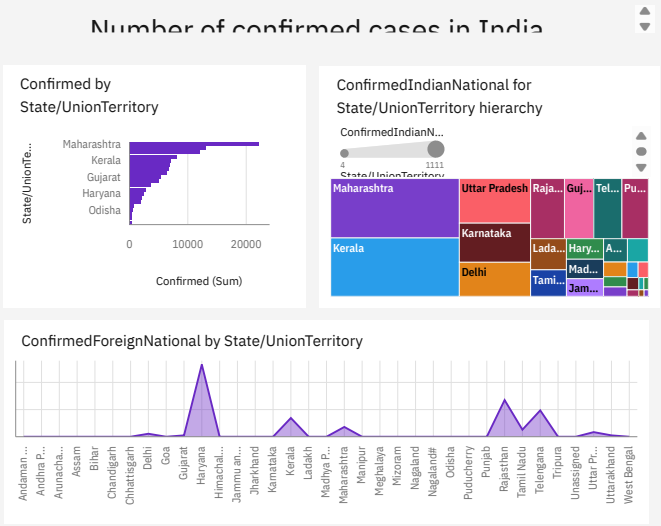
Covid-19

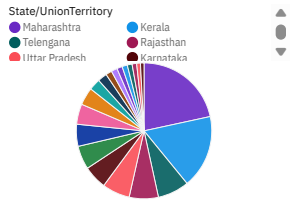
- As it can be seen from the given visualizations besides, the state of Maharashtra had the most number of Covid-19 cases followed by the National Capital Delhi and Tamil Nadu.
- Most number of confirmed cases among Indian nationals was also highest in Maharashtra and Kerala.
- Fun Fact: In these states, when average is calculated, it is found that



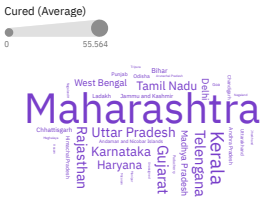
- The most number of cured cases was recorded in Maharashtra, followed by Kerala.
- Also the most number of deaths also occurred in Maharashtra.
- Although most of these deaths occurred in the first and the second phases only.
- Thanks to the vaccines

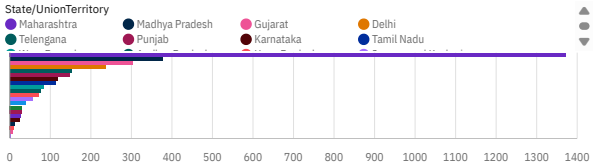
Cured vs Death Numbers

Cured by State/UnionTerritory



State/UnionTerritory sized by Cured





Deaths, State/UnionTerritory
